Recorded January 26th at Youth
Square Dance Studio by Anthony
Yeung as part of the Around
Sound Art Festival 2013
organized by Soundpocket.

Mike Cooper played an F1
Resophonic Tri-Plate guitar /
Zoom Track Sampler / Kaos Pad
/ Boss Pitch Shifter-Delay pedal /
Top Gear Fuzz Box and
Harmonica.

Leung Yan Chiu played a variety of Sheng (a free reed Chinese wind instrument)

We had never met each other before this concert. We had exchanged a few mp3 to give each other an idea of what musical oceans we both float in and then attempted to navigate our way together by free improvisation toward some distant shore.

I think we arrived at a beautiful island together finally. We hope you enjoy it as much as we did.

Many special thanx to Yang Yeung, Alice Wong, Yuk Mui Law, Edwin Lo and to everyone who came on the Lamma Island soundwalk.
